SUMMARY

Frontend & React Native Developer with 4+ years of experience building web and mobile applications using React, React Native, Next.js, JavaScript, and TypeScript. Experienced in RESTful API integration, state management (Redux & Zustand), performance optimization, and releasing applications to the App Store and Google Play. Strong background in cross-functional collaboration with product, backend, and QA teams to deliver stable, scalable, end-to-end solutions.

EXPERIENCE

React Native Developer – Virtual Spirit Technology Sdn Bhd – Sept 2023 – Jan 2026

Key Responsibilities:

- Developed and maintained a large-scale React Native mobile application used by thousands of active users, with a strong focus on performance, stability, and secure data handling.
- Integrated RESTful APIs and optimized state management to improve data flow and reduce UI rendering issues across multiple application modules.
- Collaborated closely with product managers and backend engineers to break down complex requirements and deliver features with measurable business impact.
- Supported App Store and Google Play release processes, including build preparation, release notes, and staged rollouts.

Impact:

- Contributed to improved application stability and user experience, maintaining a 4.5 App Store rating across 2,000+ user reviews.
- Helped deliver two production mobile applications (admin and customer apps) supporting services such as ordering, transportation, real-time tracking, and smart locker features.

Front-End Developer – PT Accelist Lentera Indonesia – Jan 2023 – Sept 2023

Key Responsibilities:

- Collaborated with a cross-functional enterprise team including Software Architects, Lead Engineers, QA, Backend, and UI/UX designers to develop high-performance Android and iOS applications.
- Contributed to the development of mobile applications used for sales activity management, supporting internal business processes under strict deadlines.
- Built and maintained a user-friendly web application for participant registration in company-hosted bootcamps, focusing on usability and responsiveness.
- Ensured consistent application behavior by implementing structured data handling and validating user input across multiple flows.

Impact:
- Delivered complex sales-related features such as interactive sales charts, structured reporting sheet, and optimized large data rendering, ensuring performance and reliability in production.
- Improved the end-to-end registration experience by simplifying form flows, implementing clear validation and error handling, and ensuring full responsiveness across devices, resulting in a smoother and more reliable signup process.

React Native Developer – Sirkel ID – Jul 2022 – Sept 2022 (Freelance)

Key Responsibilities:
- Assisted in developing a healthcare-focused social media application designed for hospitals and healthcare communities.
- Implemented core features such as content feeds, consulting, and coaching modules, ensuring smooth navigation and user interaction.
- Worked closely with the team to improve communication and collaboration features within the healthcare ecosystem.

Impact:
- Contributed to the successful delivery of a healthcare social platform that enabled structured communication and collaboration among medical professionals and communities.

Front-End Developer – Gobuddy Asia – Nov 2021 – Dec 2022

Key Responsibilities:
- Built and maintained cross-platform mobile applications (iOS & Android) using React Native, focusing on performance, clean architecture, and maintainable code.
- Integrated third-party services and payment gateways (including Stripe) to support secure and reliable transaction flows.
- Collaborated with design and product teams to deliver intuitive and user-friendly features under tight project timelines.
- Implemented and maintained API integrations to ensure stable data flow and consistent application behavior.

Impact:
- Successfully shipped three production mobile applications within one year, demonstrating strong ownership and delivery capability.
- Improved application stability across releases by applying clean coding practices and reliable API integration patterns.
- Enabled smooth and secure user transactions through well-tested payment integrations, contributing to a positive user experience.

EDUCATION

Tanjungpura University

BA of Management, Indonesia, 2017 – 2021

- Actively participated in student organizations for one semester, helping build collaboration and relationships among students.
- Volunteered in a Tax Volunteer Program for two months, assisting employees with personal tax reporting and gaining exposure to real-world administrative and compliance processes.
- Developed strong communication, teamwork, and problem-solving skills through academic projects and extracurricular activities.

DumbWays ID

Fullstack Javascript Bootcamp, Sept 2021 – Nov 2021

- Completed an intensive fullstack bootcamp focused on modern web and mobile development.
- Built a personal landing page as an introduction and portfolio showcase.
- Developed a Progressive Web App (PWA) for online book ordering with an attractive UI, connected to a database for data persistence.
- Created simple mobile applications such as a calculator and a to-do app using React, React Native, Node.js, and Express.js.
- Gained hands-on experience with frontend–backend integration, REST APIs, and modern JavaScript development workflows.

SKILLS & TECH STACKS

Front-End Development: JavaScript, TypeScript, HTML & CSS, Git & GitHub, React, React Native, Next.js, State Management (Redux & Zustand), API Integration

Back-End Development: Node.js, Express.js / RESTful API, MySQL & PostgreSQL, MongoDB, JWT, OAuth, WebSocket, Firebase
